## Global Leadership by Women Summit

July 5-6, 2026  
Marseille

# Connecter les mondes

How about global leadership needed to be reimagined ? How about, in the face of today's crises and disruptions, we dared to shift perspective – **to propose a more balanced form of leadership, driven by a new dynamic, a new vision?**

There is an urgent need for a new model of governance that includes all of humanity.

## What role for women?

Let's shape a society where women are builders of peace, a driving force behind sustainable investment, central to the economy, present at negotiation tables,

leading the energy transition, and key players in strengthened cybersecurity. Let's ensure that women bring effective contributions and added value in every sector, complementing those of men.

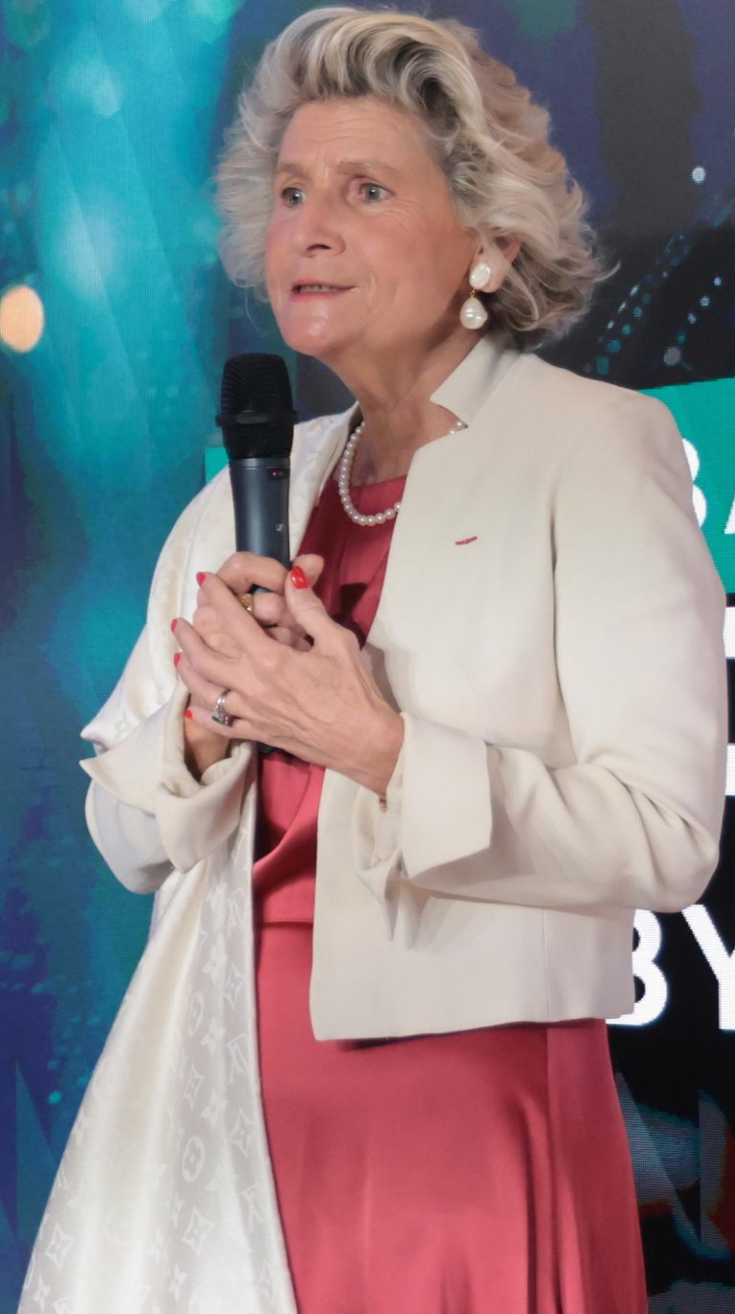

**The Global Leadership by Women Summit aims to be the first to design leadership not *for* women, but *by* women.**
